

# You were created to care.

**WHOLE PERSON EDUCATION** — At ORU we teach the Theory of Nursing for the Whole Person® (TNWP). As an extension of our whole person philosophy ORU trains nursing students to minister and meet the needs of the spirit and mind, not just the body.

**STATE-OF-THE-ART FACILITIES** — ORU nursing students have the opportunity to practice their clinical skills in a brand new facility with an immersive, technologically interactive simulation lab. Students at every level learn best practices of patient care, in a safe, nurturing environment. Our graduates are fully prepared, upon graduation, to work in the healthcare marketplace.

**FACULTY INVESTED IN STUDENT SUCCESS** — Faculty at ORU feel called to pass on their love for patient care to their students. Our faculty invest substantially in the success of each student. Through mentoring and advisement, they support and encourage students for the duration of their education. Bottom line: if you have a heart for nursing, ORU College of Nursing is the pathway to get you there.

**HANDS-ON LEARNING** — In addition to the immersive learning experience in our high-tech simulation lab, ORU nursing students have the opportunity to practice their skills in a wide variety of clinical settings: urban and rural clinics, schools, pediatric units, intensive-care units, international settings, and with local and global indigenous populations.

# ORU

ORAL ROBERTS UNIVERSITY

**SUCCESSFUL PLACEMENT STATS** — ORU nursing students routinely graduate with multiple job offers. In fact, our placement rate is 100%. Hospitals and clinics appreciate ORU nursing students' motivation, clinical knowledge, and genuine desire to serve patients and their families.

**AMAZING CAREERS** — ORU alumni routinely rise to the top, no matter what career path they choose. Many have graduated and work as flight nurses, Air Force officers, executives and leaders, community health nurses, hospital and ER nurses, even missionaries. Whatever your dream, wherever God calls you, a nursing degree from Oral Roberts University will prepare you to meet your goals.

**DEGREE PROGRAM** — Programs include residential BSN, 100% online RN to BSN (designed for working RN's), MSN (100% online), and DNP (primarily completed online, with an onsite residency component each semester).

**STUDY ABROAD OPPORTUNITIES** — Locations previously visited by our students include Mexico, Nigeria, Ghana, Dominican Republic, Israel, Brazil, and the opportunities keep growing.

*I just wanted to say thank you for all that you have poured into me during school, both spiritually and intellectually. You and the other Anna Vaughn College of Nursing (AVCON) faculty did an amazing job preparing me to be a nurse. My managers are very impressed with my practical nursing skills, and yesterday I had the opportunity to encourage a patient in his faith and walk with God, to help him maintain sobriety. This is what AVCON taught me how to do. I now realize everything I did in school was for a purpose.*
